

USK URBAN DISTRICT COUNCIL.

Sessions House,
USK.....Mon.

September 1949.

To The Chairman and Members of the
Usk Urban District Council.

Mr. Chairman, Ladies and Gentlemen,

I beg to submit the Medical Officer of Health's Annual Report
for the year 1948.

SOCIAL CONDITIONS OF THE URBAN AREA.

Being the centre of an agricultural district the activities of
the town are mainly concerned with agriculture and allied trades.
Those inhabitants who do not gain their livelihood in agriculture
and allied pursuits are employed in neighbouring large towns or at the
Royal Ordnance Factory approximately 2 miles distant from the town
and the new Nylon Factory which is some 6 miles distant.

The Registrar-General's estimate of the population in 1948 was
1660.

Rateable Value:- 28233.
Product of a Penny Rate:- 351 - 9 - 0d.
Number of dwelling houses and residences:- 443.
Area:- The area of the district is 655 acres.

VITAL STATISTICS FOR 1948.

	Total	Males	Females
Total Deaths (per Registrar).....	13	5	8
Corrected Deaths.....	21	9	12
Death Rate per 1000 of estimated population:-	12.6		
Death Rate in County of Monmouth for 1948:-	11.1		
Death Rate for England & Wales:-	10.8		

CAUSES OF DEATHS.

	Males.	Females.

TUBERCULOSIS.

The number of cases of Tuberculosis on the Register at 31st December 1948 was :-

| MALES. | | FEMALES. | |
|-----------|---------------|-----------|----------------|
| Pulmonary | Non-Pulmonary | Pulmonary | Non-Pulmonary. |
| 7 | 2 | 7 | 4 |

Total number of cases on Register at 31st December 1948 - 20.

SANITARY CIRCUMSTANCES IN THE AREA.WATER.

The Town is served by the Pontypool Gas and Water Company with a piped supply to all houses with the exception of 6 houses which are served by wells.

Notices for the provision of a supply of water in pipes were served upon the owners of three houses but appeals to the Justices disallowed the requirements of the Notices.

Four samples from the mains supply of water were taken during the year and all were found to be satisfactory. Slight over-chlorination was experienced at infrequent periods.

The water has no plumbo-solvent action and has a pH of 7. There was no restriction of supply during the year save that which was temporarily necessary for repair and maintenance of mains.

There is no supply from standpipes in the town.

SEWAGE DISPOSAL.

The majority of houses in the area are connected to the main sewage disposal works - a settling tank with effluent discharging by means of soakaway into the River Usk. The system is antiquated and in urgent need of modernisation. The Council have put forward a scheme for a new sewer and sewage disposal works and it is hoped that this scheme will be proceeded with in the near future.

REFUSE DISPOSAL.

Refuse is collected at weekly intervals and is disposed of at a suitable site outside the town. The tip is inspected at intervals for nuisance and rat infestation.

INFESTATION.

The town is frequently inspected and appropriate action taken where infestations occur.

GENERAL PROVISION OF HEALTH SERVICES IN DISTRICT.MATERNITY AND CHILD WELFARE.

Clinics for the above purpose are provided by the County Council. Usk being adequately served by a clinic situate in the town.

NURSING IN THE HOME.

Now provided under the National Health Service Act by the Local Authority, namely the County Council.

LABORATORY FACILITIES.

Water samples and pathological specimens are examined and

reported upon by the Public Health Laboratory Service (Directed by the Medical Research Council for the Ministry of Health) at their Newport Laboratory.

AMBULANCE SERVICES.

The Area is now well served by an ambulance service provided by the Monmouthshire County Council. One ambulance being stationed at Usk.

HOSPITAL FACILITIES.

All hospital services are now provided for by the Regional Hospital Board.

VACCINATION.

Vaccination is performed free of charge by the Practitioners and the Medical Officer of Health.

CONCLUSIONS.

The health of the town of Usk during the year 1948 was good and no occurrences prejudicial to the health of the inhabitants and of an avoidable nature arose.

The housing shortage in common with the rest of the country is acute and there are a few cases of unavoidable overcrowding. There are a number of houses in the town which do not conform with modern standards of hygiene and comfort but there are no 'slums' in the accepted sense of the word.

The children of the town are healthy and well cared for. A canteen for hot school dinners, is long overdue, but the Education Authority is now taking the appropriate steps for the provision of such canteen.

After surmounting great difficulties the Council are now proceeding with the erection of the first twelve of their post-war houses and it is to be hoped that the completion of these will help to alleviate the housing problem during the ensuing year.

I wish to thank the Council and the Clerk for the courtesy and help which they have given to both my predecessor and myself during the past year.

I am, Ladies and Gentlemen,

Your obedient Servant,

F.C.R. Harvey.

Medical Officer of Health.

USK URBAN DISTRICT COUNCIL.

Sessions House,
USK.....Mon,

5th October 1949.

To: The Chairman and Members of
the Usk Urban District Council.

My Chairman, Ladies and Gentlemen,

I beg to submit my Annual Report on the work carried out in the
district during the year 1948.

HOUSING.

1. Inspection of Dwelling Houses during the year:-

(i)(a) Total number of dwelling houses inspected for
housing defects (under Public Health Housing
Acts). 56

(i)(b) Number of inspections made for the purpose. 56

(ii) (a) Number of dwellings (included under sub
-head (1) above) which were inspected and
recorded under the Housing Consolidated Regu-
lations, 1925. 56

(b) Number of inspections made for the purpose. 56

(iii) Number of dwellings found to be in a state so
dangerous or injurious to health as to be
unfit for human habitation. 3

(iv) Number of dwelling houses (exclusive of those
referred to under the preceding sub-head)
found not to be in all respects reasonably
fit for habitation. 19

2. Remedy of defects during the year without service
of formal notices:-

Number of defective dwellings rendered fit
in consequence of informal action by the
Local Authorities Officers. 11

Digitized by the Internet Archive
in 2016 with funding from
Wellcome Library

<https://archive.org/details/b2888100x>

3. Action under Statutory Powers during the year:-

(A) Proceedings under Sections 9,10 and 16 of the Housing Act, 1936. Nil

(B) Proceedings under Public Health Acts:-

(i) Number of dwelling houses in respect of which notices were served requiring defects to be remedied. 8

(ii) Number of dwellings in which defects were remedied after service of formal notices:-

(a) By Owners.. .. 8

(b) By Local Authority in default of Owners. Nil.

(C) Proceedings under Section 11 of the Housing Act, 1936:-

Preliminary Notices served in respect of 3 houses.

OVERCROWDING.

The population is at present in a fluid state and it is impossible to give a true figure of the number of houses which became overcrowded during the year.

One severe case of overcrowding occurred but this was relieved immediately.

HOUSING REPAIRS.

Whilst the supply of materials improved during the latter part of the year the position regarding the supply of labour gradually deteriorated due to men being attracted to better paid work in the erection of factories in the surrounding area. As a consequence to the difficulties experienced only the most urgent of works were dealt with.

POST WAR HOUSING.

After long and tedious preliminaries work was commenced upon the first twelve of the 74 houses which the Council propose to erect upon the Monmouth Road Housing Site. The completion of this site should overcome all the difficulties which are now being experienced.

CAMPING GROUNDS.

The one caravan which was stationed in the District for a short period was removed after the service of Notice upon the Owner.

The only ground now used is the Market Ground which is used in connection with the Trinity Fair. Water supply and sanitary accommodation for the fair ground personnel is most satisfactory.

SCHOOLS.

The sanitation and water supplies of the schools are satisfactory and the only defect that occurred was promptly remedied. The Schools are visited periodically and the sanitary conveniences are found to be kept in a satisfactory condition.

WATER SUPPLY.

The samples of water taken from the public mains during the year were all found to be satisfactory. There was, however, a tendency for the water to be slightly over-chlorinated at infrequent

periods. In each instance the Water Company's attention was drawn to the defect.

Notices for the provision of a supply of water in pipes were served upon the owners of three houses but appeals to the Court disallowed the requirements of the Notices.

FOOD.

Foodshops were regularly inspected and such foods as were found to be unfit were surrendered and condemned.

The following were surrendered and condemned:-

152 lbs of dried foodstuffs and 54 tins of various foodstuffs.

COWSHEDS AND DAIRIES.

Particulars of premises on Register at end of year:-

Producers 2

Retailers 6

One retailer was licenced to sell T.T.Milk.

The two dairy farms are inspected frequently and purveyors vehicles are inspected regularly.

NUISANCES.

A number of these were reported and were investigated and dealt with by both formal and informal action.

DISINFESTATION.

Three premises were found to be infested with bed bugs and eradication was performed with the use of D.D.T. solution.

A small number of premises were found to be slightly infested with rats and all necessary action was taken. The Council's Refuse Tip is frequently inspected and treatments carried out when necessary.

FACTORIES ACTS.

1. Inspections for purposes of provisions as to health (including inspections made by Sanitary Inspector.
